

Abdul Manan

Full stack web developer

A motivated individual with dynamic skills in code creation, technology creation, finding the optimum solutions to complex problems, and building software and websites. I'm currently working as a MERN stack and real time firebase developer. I've almost one year of experience working as a web developer and also proficient as a mobile developer with react native. I'm ready to take up new challenges and tasks. Passionate about coding and ability to perform well in a team.
